| HASH

CHARAS

The Tree CBD together with its R&D team has developed the Charas CBD Hash, a European production that perfectly emulates the flavor, the fluff and moist texture, and the dominant flavor of the so-called Indian hashish.

LEMON CBD

Sweet and aromatic flavor of pollen with a higher intensity of CBD concentration, which is obtained from resinous cannabis trichomes that are accumulated in sieves of dried and loose cannabis flowers on a mesh or sieve.

HASH CBG

New Hash CBG, a resin concentrated in Cannabigerol (CBG), with a fairly strong hemp flower aroma that transports you directly. A light sweet pine fragrance completes the range of aromas of this innovative product.

HEMP OIL EXTRACT

The Tree CBD oils are produced with EU certified industrial hemp. The CBD is gained through a CO₂ extraction, with a specific treatment called decarboxylation of the hemp leaves, which gets a hemp extract of the highest quality with a significant proportion of cannabidiol.

Our CBD oils are organically cultivated and produced in Europe, following the EU strict regulations, and delivering natural product free of pesticides and herbicides.

The Tree CBD offers you the 2 most demanded types of CBD in the market:

- **Full-spectrum CBD Oil**, with all cannabinoids naturally found in the cannabis plant, including THC (less than 0,2%)
- **Broad-spectrum CBD Oil**, with multiple cannabinoids naturally found in the cannabis plant, but doesn't contain THC.
